WARRANTY

All Covered Components - Limited warranty for five years in residential applications, one year warranty in non-residential applications. Refer to Lennox Equipment Limited Warranty certificate included with equipment for details.

APPLICATIONS

NOTE - For use with air conditioners only.
Lennox designed upflow cased indoor coils can easily be installed with most Lennox upflow furnaces. Factory installed R-410A, check/expansion valve. See Product Specifications in section Air Conditioners section for indoor coil applications and cooling capacities.

TESTING

Tested with matching air conditioner units.
Rated in accordance with AHRI Standard 210/240-2008 conditions and DOE test procedures.
Air resistance tests from Lennox Laboratory air test chamber.

FEATURES

REFRIGERANT SYSTEM

Coil Construction

Aluminum tubing, hairpins, distributor and header tubes.

Copper refrigerant sweat connections on both liquid and suction lines for easy brazing.

Ripple-edged aluminum fins.

Lanced fins provide maximum exposure of fin surface to air stream.

Rifled tubing provides superior refrigerant heat transfer.

Twin coil construction assembled in a "A" configuration for large surface area.

Non-corrosive, UV-resistant polymer drain pan with dual fpt drain connections.

High pressure testing insures leakproof construction.

Check/Expansion Valve

All models have a factory-installed, internal check/expansion valve.

For use with R-410A systems.

Wide range valve.

Chatleff style fitting.

Expansion valves are externally-equalized, non-bleed port type.

CABINET

Cabinets insulated with thick fiberglass insulation.

Constructed of pre-painted heavy gauge steel.

Flanges provided in outlet opening of cabinet for ease of plenum connection.

Removable panels provide access to coil.

See dimension drawing.

Furnace Match-Up

Coils exactly match corresponding furnaces with same letter designation in model number. No adaptor required.

Engaging holes furnished on cabinet for alignment with furnace.
