FIVE (5) YEAR COVERAGE -- RESIDENTIAL APPLICATIONS

The covered equipment and covered components are warranted by Lennox for a period of five (5) years from the *date of the original unit installation*, when installed in a "Residential Application." (A Residential Application is a single-family dwelling which includes homes, duplexes, apartments and condominiums.) If, during this period, a covered component fails because of a manufacturing defect, Lennox will provide a free replacement component to the owner through a Lennox dealer or other licensed service contractor. The owner must pay shipping charges and all other costs of warranty service.

Covered equipment and covered components are warranted by Lennox for a period of one (1) year from the *date of the original unit installation* when installed in a "Non-Residential Application." (Non-Residential Applications include all properties which were not defined as Residential Applications in the definition above.) If, during this period, a covered component fails because of a manufacturing defect, Lennox will provide a free replacement component to the owner through a Lennox dealer or other licensed service contractor. The owner must pay shipping charges and all other costs of warranty service.

EXTENDED COVERAGE

Your Lennox limited warranty provides extended coverage on the components outlined below. The extended warranty coverage begins with the *date of the original unit installation* and represents the total warranty period for the specific component.

Compressors: HSXA12, HSXB15, HSXA16, HSXA19, HPXA12, HPXB15, HPXA16, HPXA19 -- Ten (10) years.

Extended warranty coverage on compressors in units installed in Residential Applications applies to the original equipment purchaser, subject to proof of purchase, and is not transferable. All repairs of covered components must be made with authorized service parts by a qualified service dealer or contractor.
