Shipping and Packing List

Package 1 of 1 contains:

- 2 Gaskets
- 1 Adapter plate
- 4 #10-3/8" screws
- 5 #10-5/8" screws

Application

This adapter kit is used when replacing the combustion air inducer in LGH/KG 092-300 units. This kit applies to units equipped with a **round flue only**; units equipped with rectangular flues do not apply.

This kit applies to the combustion air blower change-out shown in table 1 only.

**IMPORTANT** - Combustion air blower **is NOT provided in this kit**.

**IMPORTANT** - This adapter kit applies to units built before 12-7-2015.

Installation

1- Disconnect all power and shut off gas supply to unit.
2- Remove existing combustion air inducer and gasket from gas heat collector plate. Make note of wiring connections.
3- Remove screws on the collector cover plate.
4- Install replacement combustion air blower using parts provided in this kit. See figure 1.
5- Connect power and restore gas supply to unit. Refer to unit installation instructions to start gas heat.

**WARNING**

Improper installation, adjustment, alteration, service or maintenance can cause property damage, personal injury or loss of life. Installation and service must be performed by a licensed professional HVAC installer or equivalent, service agency, or the gas supplier.

**CAUTION**

As with any mechanical equipment, contact with sharp sheet metal edges can result in personal injury. Take care while handling this equipment and wear gloves and protective clothing.
