Addendum to Installation Instructions For ML180DFE, ML180UHE, EL180UNE, EL280UHE & EL280DFE

The DOE issued new requirements for indoor blowers in gas furnaces. This requirement was put in place to reduce energy consumption and is effective July 3, 2019. The tables per model must be applied during installation in order to meet the new fan energy rating. These tables supersede any heating speed and circulation speed tables found in the instructions.

Allowable Heating Speeds ML180DFE

Model Number	Red	Yellow	Blue	Brown	Black
045E36A	Not Allowed	Allowed	Factory Setting	Allowed	Not Allowed
070E36B	Not Allowed				
090E48B	Allowed				
110E60C	Not Allowed				

Allowable Circulation Speeds ML180DFE

Model Number	Red	Yellow	Blue	Brown	Black
All Models	Factory Setting	Not Allowed	Not Allowed	Not Allowed	Not Allowed

Allowable Heating Speeds ML180UHE

Model Number	Red	Yellow	Blue	Brown	Black
045E36A	Not Allowed	Allowed	Factory Setting	Allowed	Not Allowed
