The ComfortSense® 3000 is an electronic 5-2 day, multi-stage, programmable commercial thermostat. Thermostat also features enhanced capabilities for commercial packaged rooftop units and split systems including remote temperature sensing, economizer control and equipment maintenance reminders.

- Large, back-lit, easy-to-read LCD screen with digital display
- Large, easy to push buttons
- Sleek, modern appearance works well with any decor
- System status icons show when the HVAC system is running
- Maintenance reminder lets user know when routine service is required
- Filter monitor shows when to replace filter
- Service monitor indicates when the cooling system is not operating properly
- Gradually changes room temperature to next program period for increased comfort
- Hard-wired to the indoor unit power supply
- No batteries required
- Thermostat can be used in conventional heating/cooling (non-heat pump) applications
- Smooth Setback Recovery starts system early to achieve setpoint at start of program period
- Economic relay control
- Five-minute compressor short-cycle protection
- Minimum cycle time of 6 minutes

**FULLY PROGRAMMABLE**
- 5-2 day programming, four time periods per day
- Day/Time button allows quick clock setting changes
- Heat/Cool buttons simplify setting precise heating and cooling temperatures
- Fan button selects continuous or automatic blower operation
- Programming button sets, reviews, or changes schedule
- Hold feature will temporarily hold setpoints for two hours or permanently without changing the program
- Maintains program in memory for 24-hours in the event of a power outage

**WARRANTY**
- Limited one year warranty

**NOTE** - Refer to Lennox Equipment Limited Warranty certificate included with equipment for details.

**DISPLAY**
- 30 second display when any button is pressed
- Day and time display will show current day and time
- Program/Hold indicators show the current program (A, B, C, D) and the program override (HOLD) status
- Compressor stage indicators show if the first or second stage of the compressor is activated (if applicable)
- Filter reminder (FILTER) will be displayed when the filter reminder timer expires
- Service (SERVICE) and maintenance (MAINT) reminders
- ROOM - shows the current room temperature
- SETPOINT - shows the set point temperature
- Occupied (OC) and unoccupied (UC) program status
- System selector indicators - shows the current selection of system control: COOL, OFF and HEAT
- If heating is activated, the system status will show a flame animation
FEATURES

DISPLAY (continued)
• If cooling is activated, the system status will show a snowflake animation
• Fan selection indicator shows the current selection of fan control which can be ON or AUTO
• If the fan is activated, the fan status indicator will show a rotating fan animation
• The service indicator will show a 1HZ blinking indicator when 24VAC is present at the L terminal and Y1 is on for five minutes
• LCD backlight turns on for 30 seconds when any button is pressed

SPECIFICATIONS

NOTE - For use with air conditioning equipment only.
• Temperature set range: 50°F to 90°F (10°C to 32°C) in one degree increments
• Room Temperature Display range: 35°F to 99°F (2°C to 37°C)
• Room Temperature Display: User selectable Fahrenheit or Celsius (press Settings button three time, press up/down arrow button to toggle between Fahrenheit or Celsius)
• Internal temperature sensor or optional remote room temperature sensor (DIP switch setting)
• Fan control: On/Auto
• Stage up timer: 15 minutes
• User selectable filter reminder: Off, 1, 3, 6, or 12 months
• User selectable maintenance reminder: Off, 6 or 12 months
• Service reminder
• DIP switch settings: temperature offset, internal/external (room) temperature sensing, fan option (gas or electric heat), Smooth Setback Recovery (SSR)
• Temperature Offset (DIP switch setting): -3°F to 0°F
• User selectable maintenance reminder: Off, 6 or 12 months
• Memory, clock, filter and maintenance counters maintained for 24 hours of power outage
• Reset button restores thermostat to original factory settings
• Power Supply: 18-30 VAC - 50/60Hz
• Dimensions (H x W x D): 3-1/2 x 4-9/16 x 1-5/16 in. (89 x 16 x 33 mm)

Terminals
• OC - Occupancy Output (economizer)
• R - 24VAC
• Y1 - 1st Stage Cooling
• W1 - 1st Stage Heating
• Y2 - 2nd Stage Cooling
• W2 - 2nd Stage Heating
• G - Fan
• L - Service Indicator
• C - Common 24VAC
• T - Remote Indoor (Room) Temperature Sensor 1
• T - Remote Indoor (Room) Temperature Sensor 2

ORDERING INFORMATION
COSTAT05FF1L (11Y05) - 2 Heat/2 Cool
• Commercial heat/cool systems (conventional)
• Commercial packaged heat pumps (2-20 tons)
• Commercial split heat pump systems (7-10 tons)
NOTE - Not for use with small 3-5 ton split heat pump systems.

Optional Accessories
Indoor Room Temperature Sensor
• C0SNZN73AE1 (47W37)
• Remote non-adjustable wall mount 10k averaging temperature sensor allows remote temperature sensing away from the thermostat
• DIP switch sets internal (thermostat) or external (remote temperature sensing)
• Room sensor wiring can be sized from 16 to 22 AWG depending on the application
• The maximum length of wire from a device to a zone sensor is 1000 feet (305 m)
• Twisted pair wire is recommended for wire runs longer than 100 feet (30 m)

Wall Plate
• C0MISC17AE1 (X2659)
